OBJECTIVES

A motivated and disciplined Computer Science Engineering student with hands-on experience in programming (C, C++, Python), database management (SQL), and cloud technologies through Google Cloud Gen AI Study Jams. Passionate about developing practical tech solutions, with a strong foundation in teamwork, leadership, and innovation gained through NCC, Scouts & Guides, and ATL projects. Seeking an entry-level role or internship to apply and enhance my technical and problem-solving skills in a dynamic professional environment.

EDUCATION

NIST University, Berhampur — *B. Tech*

2024 – Continue

Continuing B. Tech in Computer Science Engineering (2nd Year).

Kendriya Vidyalaya, Berhampur — *Matriculation and Higher Secondary*

2012 – 2024

Completed matriculation with 86.6% and 12th in Science Stream with PCM, CS.

EXPERIENCE

Atal Tinkering Lab, Kendriya Vidyalaya, Berhampur
Project Contributor

2018 – 2023

Actively engaged in ATL innovation projects under Atal Innovation Mission, developing solutions like automatic parking and RFID security systems. Gained hands-on experience with Arduino, 3D printing, and enhanced problem-solving, creativity, and teamwork skills.

SKILLS

- Programming languages: C, C++, Python, Java
- DBMS: SQL
- Communication Skills
- Adaptability to environment

CERTIFICATES
